

## Tenure-Track Faculty Position – Geotechnical Engineering

The Charles E. Via, Jr. Department of Civil and Environmental Engineering (CEE) at Virginia Tech invites applications for a tenure-track faculty position in geotechnical engineering at the rank of Assistant Professor who will contribute to instructional, research, and service activities of the Department's Geotechnical Engineering Program. We are seeking candidates motivated to contribute to a collegial, interdisciplinary community in several core mission areas of the university.

The department has 53 faculty, and a current enrollment of 320 graduate students and 700 undergraduate students. The department ranks 10<sup>th</sup> and 9<sup>th</sup> in undergraduate and graduate education, respectively, among all U.S. civil and environmental engineering departments (USN&WR). With classroom and lab facilities in Blacksburg, Virginia and in the Greater Washington D.C. metro area, the department is one of the largest civil and environmental engineering programs in the U.S.

Virginia Tech is a public land-grant university, committed to teaching and learning, research, and outreach to the Commonwealth of Virginia, the nation, and the world. Building on its motto of *Ut Prosim* (That I May Serve), Virginia Tech is dedicated to InclusiveVT—serving in the spirit of community, diversity, and excellence. Virginia Tech actively seeks a broad spectrum of candidates to join our community in preparing leaders for the world. The mission of the College of Engineering, whose undergraduate program ranks 13<sup>th</sup> and graduate program ranks 31<sup>st</sup> among all U.S. engineering schools (USN&WR), is to educate and inspire our students to be critical thinkers, innovators and leaders. Our core values are inclusiveness, excellence, integrity, perseverance and stewardship.

This faculty position will be filled at Virginia Tech's main campus, located in Blacksburg, Virginia. Blacksburg, and the surrounding areas, are consistently ranked among the country's best places to live. In addition, our program in the Washington, D.C. area offers unique proximity to government and industry partners and is also expanding rapidly, with Virginia Tech's exciting new Innovation Campus in Alexandria, VA, slated to open in 2024.

The Geotechnical Engineering Program at Virginia Tech is widely recognized as one of the top programs in the country. Key strengths include (1) expertise that spans a broad range of topical areas within geotechnics, providing a strong backbone for collaborative work; (2) strong links to practice through our industrial affiliates program, the Center for Geotechnical Practice and Research (CGPR); (3) fully-equipped, dedicated research and teaching laboratories, which are among the best geotechnical laboratories in the US; (4) exemplary teaching, research, and service; and, (5) our ability to recruit outstanding graduate students. The Via Endowment allows the CEE department to offer scholarships and fellowships to highly qualified students.

The successful candidate will have a Ph.D. degree in Civil Engineering or a closely aligned field, should demonstrate a strong commitment to scholarly work, sponsored research, mentoring students, undergraduate instruction, and specialized graduate education. The successful candidate will have a research focus on geological engineering or a closely related discipline, with potential focus on application to rapidly emerging areas such as intelligent infrastructure, remote sensing, and/or analysis of large data sets for geotechnical engineering applications, among others. The capacity to obtain registration as a Professional Engineer (PE) is desirable, but not required. The successful candidate will be required to have a criminal conviction check as well as documentation of COVID-19 vaccination or receive approval from the university for a vaccination exemption due to a medical condition or sincerely held religious belief.

Applicants must apply online at [jobs.vt.edu](http://jobs.vt.edu) (job number 517849): application materials include a cover letter, curriculum vitae, a statement discussing teaching, research, and professional goals, a statement on contributions to advancing diversity, equity and inclusion, and contact information for at least three references. Review of applications will commence on November 15, 2021 and continue until the position is filled. Questions regarding the position should be directed to the search committee chair, Dr. Adrian Rodriguez-Marek ([adrianrm@vt.edu](mailto:adrianrm@vt.edu); 540-231-5887).

The department fully embraces Virginia Tech's commitment to increase faculty, staff, and student diversity; to ensure a welcoming, affirming, safe, and accessible campus climate; to advance our research, teaching, and service mission through inclusive excellence; and to promote sustainable transformation through institutionalized structures. Virginia Tech does not discriminate against employees, students, or applicants on the basis of age, color, disability, sex (including pregnancy), gender, gender identity, gender expression, genetic information, national origin, political affiliation, race, religion, sexual orientation, or veteran status, or otherwise discriminate against employees or applicants who inquire about, discuss, or disclose their compensation or the compensation of other employees or applicants, or on any other basis protected by law. If you are an individual with a disability and need an accommodation, please contact Rachel Atwell at [raesquivel@vt.edu](mailto:raesquivel@vt.edu) at least 10 days prior to the event.
